

## THE NEWS-LEADER

E. L. DAVISON, JR.

THURSDAY, MAY 28, 1903.

## ANNOUNCEMENTS.

FOR CIRCUIT JUDGE.

Patterson.

We are authorized to announce Charles Patterson, of Taylor county, a candidate for Circuit Judge of the Eleventh Judicial District, at the annual election, November 3, 1903.

FOR SCHOOL SUPERINTENDENT.

Peter.

We are authorized to announce Kenneth Peter as a candidate for Superintendent of public schools, for Washington county, subject to the action of the Democratic party, November election, 1903.

Saunders.

We are authorized to announce Louis H. Saunders as a candidate for the office of County Superintendent of Cannon County, Washington county, subject to the support of the voters of the county and the endorsement of all political parties.

FOR COUNTY JUDGE.

Morgan.

We are authorized to announce W. H. Morgan as a candidate for County Judge of Washington County, subject to the action of the Republican party.

FOR REPRESENTATIVE.

Hays.

We are authorized to announce James P. Hays as a candidate for Representative for Washington County in the Lower House of the Kentucky Legislature, subject to the action of the Republican party.

The question as to whom will go the Collectorship of the Fifth District is still undecided. Senator Deboe's man, Sapp, p. A. A. fame, does not seem to be a popular choice for the administration and his appointment is opposed by Congressmen Evans and Lewis. Coming home Evans said said without much hesitancy that his application will be given much recognition. There are a number of good men trying for the collectorship, any one of whom with one exception, we are sure, would be acceptable to the majority of the Republicans of the district, and the one exception is Mr. Sapp. The appointment of Mr. Sapp would be an unwelcome one from a political standpoint, and would certainly do the party in the State no good. It seems, however, that in the matter of appointments, what Deboe says goes, and it may be that Mr. Sapp will land the plum.

LITTLE Greece continues to get the worst of the engagement with Turkey and Edhem Pasha has dealt the Greeks another crushing blow. The entire line in Thessaly were attacked. Dokomo and Kitiaki were promptly occupied by the Turks, while the Greeks fell back upon the Ortheys mountains on the old frontier. The Turks are said to have numbered 50,000 men, with 80,000 in reserve, while the Greeks had 35,000. The Greek loss was heavy. There is no statement of the Turkish losses. The demands of the Sultan in regard to an armistice are everywhere in Europe regarded as exorbitant.

THE Kentucky Senate, which furnished a number of disagreeable scenes at the regular session of the present Legislature, added another to its record Monday. The quarrel over the Fusion Bill resulted in two pre-emptory officers and two howling factions, each claiming to be the only regular Senate of Kentucky, attempting to do business in the state hall at the same time. President pro tem, Goebel, claimed the chair, and President Worthington refused to surrender it. The clerks recorded only the proceedings of the Goebel faction. A peace was patched up after the session. Several persons

encounters between members were narrowly averted.

THERE is a queer case in Pres. tonsburg. Senator Deboe is appointed for postmaster of that can not get a building within the city limits in which to keep the office. The appointee is Mrs. Flannery, a sister of John W. Langley. She lives in the country and was appointed over the protest of the town people, who say that there is no building here that she can get at any price.

KENTUCKY day and the dedication of the Louisville building will be celebrated at the Nashville Centennial on Monday next. A special train from Louisville will bear Gov. Bradley E. J. McDermott, Mayor Todd and others who will make speeches and take part in the exercises.

It is said that Dr. W. Goodyear Hunter will be given the position of Minister to Peru, he having declined to accept that appointment out of four to choose from.

Armed is the poison, most chills it contains. Dr. B. W. Pomeroy of the Kentucky State Penitentiary, subject to the support of the voters of the county and the endorsement of all political parties.

Eye water or salve containing sugar of lead are dangerous. Sometimes eyes are cured with them, but often they are not. Thousands of people are cured with them, but often they are not. Thousands of people are cured with them, but often they are not.

## KENTUCKY KERNES.

The oil business in northeastern Kentucky seems to be on a boom. The Floyd County News says:

Three oil wells now under operation in this county, on Salt Lick, Pike Fork and Ball creek, about thirty-five paying wells already completed and awaiting the pipe line, 4,500 barrels of oil in tanks around the Neel farm on Beaver. Talk is favorable for a pipe line soon.

The Pike County Journal gives the following reasons why Kentucky is liable to go into the hands of a receiver:

With money getting scarcer and dearer, property depreciating in value, business of all kinds paralyzed, congress increasing the burdens of an indirect tax and the legislature raising direct taxation, it looks like a matter of a very short time when the "Bluegrass" state will go into the hands of a receiver.

"Ten people out of a dozen are invincible," says a recent medical author. At least eight of these ten, it is safe to say, are suffering from some form of blood disease, which a person who uses Ayer's Sarsaparilla must be sure to cure. Then, don't be an invalid.

One of the latest evidences that Tyson remarked, says Willard Ward in The New Review, "Douglas Jerald said to me, 'What has come to you?' 'Has my mind gone?' Here is a poem of which I can't understand a single line." "Browning," he added, "has a genius for a sort of dramatic composition and for analyzing the human mind. And he has a great imagination. But poets' waiting should be sweet to the mouth and ear, which Browning is not. There should be a glory of words as well as deep thought. This he has not got. In his last work he makes 'impulse' rhyme with 'impulse.'" He spoke of Browning's love of London society. "I once told him that he would die in a white tie, and he rather liked it."

His Choice. "Here, girls," said Mr. Cimmo to his daughter, "listen while I read these pointers for young ladies."

"Pointers?" replied Miss Ethel Cimmo derisively. "Girls don't care for pointers. They'd rather have pugs."

Draw the folder to the barn immediately after hatching and store away for winter consumption. The plan we have submitted is simply to place the folder in temporary storage after the corn is hatched and at the first favorable opportunity to draw the folder to the barn.

rather moist, not wet, and the weather dry-draw it immediately to the barn or shed and store it away much as you would more grain. If the folder is wet, it cannot be packed in rows horizontally. It will rot and mold. Damp folders should be exposed in the sun so that the air may circulate through the bundles. If possible, avoid handling it when dry and crisp, as the loss from breaking will be very serious. If protracted dry weather prevails, the work should be deferred otherwise the bundles of folder should be sprinkled with water in the evening and heaped, after the morning before the moisture evaporates. This was the plan pursued by many Ohio farmers during the drought of 1902. The question may be asked, Does it pay? And I answer unhesitatingly, Yes.

Aside from the comfort and convenience in feeding, the folder of stored corn stores is at least 25 per cent greater than that which has been or will be exposed to moisture and rot. I would quickly decide in favor of the folder. It may be seen, however, fully stacked and without appreciable loss, but corn folder must be housed in order to maintain its full value. If an ordinary farm wagon is used to draw the folder, its capacity may be increased by lengthening the coupling pole and constructing a low rigging or ladder upon which to carry the folder. Low wheels would add greatly to the convenience of such a conveyance.

Rhubarb plants may be safely set both in fall and spring, but if set in the fall, the crown should be well covered with earth to prevent heaving and exposure to the winter winds. For rhubarb, though a very hardy plant, will not endure rapid alterations of freezing and thawing without exposure to the air, and, therefore, not well adapted for very moist soils in a cold climate. What is wanted in rhubarb culture is an early, rapid and vigorous growth, with the accompanying large and juicy leaf stalks. Rural New Yorker tells that there is nothing better than the early application of fermenting horse manure, for this purpose.

New Remedy For Chills. One of the Arkansas stations they are using a new remedy for the extermination of malarial fever. The medicine is a new named essence, extract of pyrethrum. One and a half gallons of essence are mixed with 25 pounds of pyrethrum (perianth powder), forming a yellow, clay extract. Dissolve a couple of drops in a gallon of the extract and churn till thoroughly emulsified. When using, mix a pinch of this emulsion with 4 quarts of water. This mixture combines the properties of kerosene and pyrethrum and is cheaper and more effective than either.

Building Sills. The essential points in building sills, as suggested up in a bulletin on sills issued from the New York station, are: To have the walls tight enough to exclude air from the contents; to have the walls not only strong, but rigid; to have sufficient depth, 30 feet or more, if possible. There should be not more than about four square feet of floor surface in the sills for each cow. The larger the sills the cheaper the storage for each ton of silage. The larger the sills the more cheaply can silage be supplied to each animal.

Olds and Ends. The hay crop over the Pacific slope is reported as one of the largest ever known. It has now the fact that hay crops must be furnished to meet a growing demand.

The sixth annual report of the Ohio farmers' institute shows that 157 regular and 31 independent meetings were held last year, and that the number of farmers who attended was 100,000. The report also shows that the number of farmers who attended was 100,000.

The advantages of spraying have been so apparent in Utah that the legislature provided for county and state inspection and makes it obligatory upon all fruit growers.

Irrigation will double the production of meads and cucumber vines, if judiciously applied.

"It is the Best On Earth." That is what Edwards & Barker, merchants of Platts, Ga., say of Chamberlain's Pain Balm, for rheumatism, lame back, deep-seated and muscular pains. Sold by Hayden & Robertson.

Mr. Will Saffman, Union, Ky., has some eyes for you. He tried many remedies and remedia and always failed to get relief until he tried Saffman's Eye Solvent, which cured his trouble in a few weeks.

Dr. Talmage likes Turkey. "I am consuetudin in my likes," said the doctor, "because I have traveled so much. Therefore pardon me when I say that I want my turkey stuffed with little English system and trimmed with French fried potatoes. Each year is a little worse piece of the brown potato strips placed around the turkey, and when I am brought in to look like a picture in a child's story book. And can't the poor turkey get out of the fence?" said my little granddaughter.

Serve Dinner at Midday. An old-fashioned Thanksgiving demands a midday dinner. Whoever fails to entertain other days she should not be invited to on this one, particularly when there are children to be entertained.

S. M. KARRICK, DEALER IN BUGGY TOWNS, WHEELS, CUSHIONS, SEATS, STORM APRONS, BUGGY & WAGON HARNESS, SADDLES, FARM WAGONS & MACHINERY.

## Beware of Mercury!

Mr. Henry Roth, of 1848 South 9th Street, St. Louis, was given the usual description of the disease of mercury. He was twice pronounced cured, but the disease returned each time, he was seized with rheumatic pains, and red lumps and sores covered his body. "I was a horrible case," he says, "and the more I received, the worse I became. I got a New York specialist and he could cure me, but his treatment did me no good. I was stiff and full of pain, my left arm was useless so that I was unable to do even the slightest work. This was my condition when I began to take S. S. S., and a few bottles convinced me that I was being benefited. I continued the medicine, and one dozen bottles cured me and sound and well. My system was under the effects of mercury, and I would soon have been a complete wreck but for S. S. S."

S. S. S. is a purely vegetable medicine, and the only cure for the disease of mercury. The medical treatment of the doctors all ways does more harm than good. Beware of mercury! Books on the disease and its treatment are sent free by any address by Swift Specific Co., Atlanta, Ga.

A Warm Friend. Foley's Kidney Cure is very hot, but when diluted it is a warm friend indeed to those suffering from gravel complaints. It never fails, 25c and 50c. For sale by Hayden & Robertson.

## TAXPAYERS ATTENTION!

All persons owing State and county taxes to me as Sheriff are hereby notified that they positively must settle same at once, or have their property advertised and sold. This is the last notice.

JOHN T. CRAWFORD.

Sheriff W. G.

Why not be your own Middle-man? Pay but one profit between maker and you. Get the 70c Page Catalog and Buyers Guide proves that it's possible. We sell 25c, 50c, 75c, 1.00, 1.50, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50, 5.00, 5.50, 6.00, 6.50, 7.00, 7.50, 8.00, 8.50, 9.00, 9.50, 10.00, 10.50, 11.00, 11.50, 12.00, 12.50, 13.00, 13.50, 14.00, 14.50,
